

INSULATING SLEEVINGS

Insulating sleeveings glassfibre with PVC coating

- Class B
- Continuous operating temperature -20C up to + 130C
- Maximum instantaneous operating temperature + 160C
- Dielectric strength 3KV
- Self extinguishing
- Mechanical strength
- Suitable for oil transformers
- Suitable for use with impregnating varnish
- Very flexible
- Waterproof

Insulating sleeveing glassfibre with silicone coating

- Class C
- Continuous operating temperature -60C up to + 250C
- Maximum instantaneous operating temperature + 290C
- Dielectric strength 15KV
- Self extinguishing
- Mechanical strength
- UV protection
- Suitable for oil transformers
- Suitable for use with impregnating varnish
- Does not contain halogen
- Very flexible
- Waterproof
